## Summary

I am a high school graduate, enrolled in UNH, interested in learning and working more in the Computer Science field. I enjoy coding in multiple languages and debugging the programs I create. I am majoritively self-taught in this field, but I also enjoy learning from others as well. While this would be my first job of this nature, I am looking forward to expanding my already growing knowledge in the Computer Science field.

## Skills

- Proficiency in Java and Python
- Problem Solving
- Testing
- Oral and Written Communication
- Technical Writing
- Film Editing
- Computers and Electronics
- Deductive Reasoning
- Detail-Oriented
- Team Member
- Debugging

## Experience

---

### Alton Bay Christian Conference Center / Cook

May 2015 - PRESENT,

- Performed additional tasks to keep the dining room running smoothly
- Provided constructive suggestions and encouragement to employees
- Effectively communicated with kitchen staff regarding customer allergies, dietary needs and other special requests
- Ensured great team cooperation in a busy work environment

## **Programing Experience / Self-Taught**

August 2016 - PRESENT,

- Learned and executed complex algorithms.
- Created multiple simple processing.js programs [here](#).
- Experience in object oriented design
- Understanding of complex rendering algorithms

## **Education**

---

### **Laconia Christian School / High School Diploma**

August 2008 - June 2018, Laconia, NH

Laconia Christian School is a well respected college prep school that gave me excellent writing and communication skills. This is alongside its Computer Science program, in which I took Intro to Computer Science and AP Computer Science A in parallel, scoring A+ in both courses. In addition I was able to learn JavaScript between classes the year before.

### **University of New Hampshire/ Computer Science**

August 2018 - June 2022, Durham, NH

I am enrolled for four years at UNH to study Computer Science. I am eager to learn and excel in this experience. Although I would be working during this period I am fairly confident in my ability to balance both work and study.
